Visitor's Guide

IFAT.SAUDIARABIA

Welcome to IFAT Saudi Arabia

On behalf of the IFAT team, it is our pleasure to welcome you to the debut edition of IFAT Saudi Arabia, the Kingdom's dedicated event for environmental technologies, taking place from 26-28 January at the Riyadh Front Exhibition & Conference Center.

As Saudi Arabia continues to advance its waste and water infrastructure agenda, IFAT Saudi Arabia has been introduced in response to growing industry demand for focused engagement, practical knowledge exchange and cross-sector dialogue. Organized by dmg events and licensed by Messe München and supported by the Founding and Strategic Partner, National Center for Waste Management (MWAN), the event brings together public and private sector stakeholders supporting the delivery of resilient, efficient and sustainable environmental systems.

Across three days, IFAT Saudi Arabia will showcase solutions spanning waste management, recycling, water treatment, air pollution control and circular economy applications. Visitors can engage with 450 companies from 35 countries addressing real-world operational and regulatory priorities.

Complementing the exhibition, the programme features the invite-only IFAT Saudi Arabia Summit and a CPD-certified Conference Programme delivered across the Orange Stage and Blue Stage. Together, the sessions provide structured discussions on policy frameworks, investment readiness, system efficiency and implementation approaches, offering insights drawn from regional and international experience.

We are proud to collaborate with our partners, exhibitors, speakers, sponsors and supporting entities to deliver an event that supports informed decision-making and constructive dialogue across the environmental ecosystem.

Thank you for joining us at IFAT Saudi Arabia. We wish you a productive and valuable experience.

The IFAT Team

من المهد إلى الاستدامة

From waste to sustainability

المركز الوطني لإدارة النفايات (موان)

National Waste Management Center (MWAN)

Organizes and supervises waste management activities

يُعمل على تنظيم أنشطة إدارة النفايات والإشراف عليها

Encourages investment in the sector

تحفيز الاستثمار في القطاع

Enhances sector quality based on the principles of the circular economy

الارتقاء بجودة القطاع بناءً على مبدأ الاقتصاد الدالري

Contributes to achieving the Sustainable Development Goals

تحقيق أهداف التنمية المستدامة

Saudi Arabia
SUMMIT

26 January 2026
5pm - 9pm | Hall 4

Transforming Waste & Water for Saudi Arabia's Sustainable Future

This strategic summit brings together leaders from public and private sectors to accelerate innovation and collaboration in the waste and water industries.

Explore how impact-driven capital is enabling circular economy models, advanced water reuse technologies and smart waste management systems.

Themes Include:

Impact investment Future readiness

Stakeholder engagement Knowledge Transfer

Attend
CPD CERTIFIED SESSIONS

Hall 2 | January 26 – 28 | 4pm – 8pm

Orange Stage

Empowering a Circular Future

The Orange Stage sessions bring together innovators and industry leaders to shape the future of waste and environmental management.

Attendees will gain exclusive insights into evolving regulatory frameworks, cutting-edge recycling and circular waste solutions, and collaborative models driving sustainable transformation.

Themes Include:

Regulations and compliance
Recycling technologies
Circularity
Technological innovation

Industry collaboration
Capacity building
Green investment

Attend
CPD CERTIFIED SESSIONS

Hall 4 | January 27 – 28 | 4pm - 8pm

Blue Stage

Innovative solutions in water management

The Blue Stage sessions bring together experts and key industry players to explore innovative solutions in water management.

Attendees will gain exclusive insights into the latest desalination technologies, AI-driven operational efficiencies, and circular economy strategies that are reshaping the Kingdom's environmental landscape. Sessions will highlight successful implementation models, regulatory frameworks, and collaborative approaches driving innovation across utilities and industries.

Themes Include:

Desalination advances and innovations
Digital transformation
Sustainable development
Water reuse

Implementation of Extended Producer Responsibility (EPR)
Impact of AI
Wastewater treatment
Smart utility transformation

Experience environmental solutions in action

Sort it Right

Think fast, sort faster. Test your recycling knowledge by placing the correct waste item into the correct bin. Participants will have just 25 seconds to correctly match waste items with the right recycling categories.

Location : Hall 3

Green Oasis

Get hands-on with sustainability. Visitors can create their own terrarium, learn about ecosystems and take it home as a living reminder of the event.

Location: Hall 3

Workshop Timings:

Session 1: 5:30 PM – 6:00 PM

Session 2: 7:30 PM – 8:00 PM

First come, first served. Seats are limited (10 participants per session).

Experience environmental solutions in action

Startups Area

Discover emerging innovations and connect with startups presenting practical technologies across waste, recycling, and water solutions.

Location : Hall 4

Investors Lounge

Engage directly with the MWAN team, with participation from the Environment Fund and other governmental entities, at the Investors Lounge.

Explore available incentives, grants and investor support mechanisms. Discover a curated portfolio of 500 investment opportunities, which will be officially launched with detailed information made available to investors. Visit this dedicated space designed to facilitate meaningful discussions, partnerships, and collaboration.
